

DISTRICT LEVEL DISASTER MANAGEMENT TRAINING HELD.

BOMDILA-1ST FEB'10 : A 3-days District Level Disaster Management training on search and rescue and first aid was held in the district headquarters Bomdila to acquaint and make the people aware of the impending risk factors keeping in view the approaching monsoon seasons. The 3-days training gains importance as the district has already experienced several natural calamities in the last few years resulting in loss of valuable human lives and properties worth in lacs.

Delivering the key note address, Addl. DC Rinchin Tashi reiterated that awareness is the key factor. Though the man made disasters can be done away with or minimized to a lesser extent, one cant simply wish away the natural disasters. Humans cant fight with the natural disasters but can surely take precautionary steps to mitigate the losses and its after effects, said ADC Tashi. Therefore, awareness through such training programmes is the guru mantra, he added. Urging the departmental officers for conducting such training programmes in every circle and blocks of the district, the ADC underscored the roles that the Police, Military and paramilitary forces, NGOs, NCC, Scouts, Guides, NSS and the paramedics could play during any natural calamity.

Besides the power point presentations by the DRRO, the training programme consisted of search and rescue operation by the police, first aid and emergency medical response by the Medical department and the search and rescue operation and the role of Army by the 5-Mtn Division.
